

Don't just seize the day.

**NEW  
RELEASE**

## Transform your workday with the 6R Series.

Change the way you work with the new John Deere 6R Series – our most versatile tractors yet. Models up to 154 kW of engine power (210 hp\*), with a full 114 L/min hydraulic flow and up to 9,550 kg of rear hitch capacity, give you the muscle to handle big planters and deep tillage equipment. Need to move some materials? The all-new H360 and H380 Loaders were built specifically with these tractors in mind, giving you greater lift height and available single-point electrical and hydraulic connection. And when the day's done, you can get home faster with transport speeds of up to 50 km/h.

Don't just seize the day, transform it.

**The all-new 6R Series Tractors with 125-154 kW of engine power (170-210 hp\*).**

Get to know the all-new 6R Series Tractors at our website or see your local John Deere dealer today.

**Nothing Runs Like A Deere.™**

\* Rated engine hp (ISO) per 97/68/EC.
